**TAT-125**

Flexible, adhesive-lined, polyolefin heat-shrinkable tubing

TAT-125 is an adhesive-lined, flexible, thin-wall, heat-shrinkable tubing. It provides one-step electrical insulation and moisture sealing for a wide variety of applications. TAT-125 is especially suitable for applications where the moisture seal must withstand flexing or other physical abuse. Because both tubing and adhesive are flexible, the moisture seal is resistant to bending of the substrate. The thin adhesive lining of TAT-125 melts and flows with the heat of application to form a positive environmental seal. The adhesive will adhere to a wide variety of plastics, rubbers, and metals, including PVC, polyethylene, neoprene, lead, and steel.

**Temperature rating**

- Full recovery temperature: 121°C
- Continuous operating temperature: –55°C to 110°C

**Specifications**

- **Type**: Raychem Military UL
- **TAT-125 Type 1 (colors)**: RW-3032 AMS-DTL-23053/4, Cl. 2 E85381
- **TAT-125 Type 2 (clear)**: RW-3032

*When ordering, always specify latest issue.*

**Dimensions (millimeters/inches)**

**Ordering information**

- **Colors**: Standard Black, Nonstandard White, red, blue, yellow, green, orange, brown, violet, clear (non-flame-retardant jacket)
- **Size selection**: Always order the largest size that will shrink snugly over the component being covered.
- **Standard packaging**: 4-foot lengths
- **Nonstandard sizes**: Sizes of 2 inches and larger are by special order only. Other nonstandard sizes are available upon special request.
- **Ordering description**: Specify product name, size, and color; for example, TAT-125 1/4-0 (0=Black).
